

# Environment and Sustainability Policy

---

---

Clover Environmental Solutions Ltd is an environmentally responsible company, committed to minimising the impact of its activities on the environment.

Our aim is to control our activities in order to promote the use of sustainable resources and discourage wasteful or damaging practices. Where we have influence, we will strive to protect the earth's resources for future generations.

## **Our Commitment**

- To evaluate and regularly monitor how our current activities impact on the environment and measure the carbon emissions from our energy consumption.
- To set targets for on-going improvement, for example by reducing carbon emissions and review these targets annually.
- To undertake measures to prevent or reduce waste and pollution, encourage reuse and recycling and the use of sustainable resources.
- To comply with environmental legislation, regulations and codes of practice.
- To integrate sustainable and environmental considerations into all our business decisions at every level of the company.
- To promote awareness and understanding of environmental issues among all staff, suppliers, contractors, customers, shareholders and within the local community.
- To review and strive to continuously improve our sustainability performance and encourage our suppliers to adopt similar principles.
- To report compliance to the company's environmental and sustainability policy internally and externally and review the policy regularly.

To meet this commitment, we operate an Environmental Management System (EMS) which meets the requirements of ISO 14001:2004, co-ordinated by the environmental representative. We have separate ISO 14001:2004 certificates for our Epsom and Thatcham facilities.
